

## Lesson 11 – Clothes

Welcome to lesson 11! This week, we are going to teach you words related to clothing. The words themselves are pretty easy to learn, however, the way you use the verb 'wear' is very different than it is from English. This will be a shorter lesson than usual as the words for this topic are easy to explain and grasp. =

## Verbs for Wearing Clothes

Now as we said in the intro for this lesson, unlike English, there is more than one word for the verb wear, and it depends on what article of clothing you are referring to.

Let's take a look and then let's break them down one by one:

 (track 11-2)

a. 입다	for clothes such as shirts, pants, skirts, and sweaters
b. 신다	for things you wear on your feet like shoes and socks
c. 쓰다	for items you wear on your head like hats and glasses
d. 매다	for things you can tie or fasten like ties and scarves
e. 메다	for things you can wear on your shoulders or back like backpacks or bags
f. 끼다	for things you can wear on your hands or fingers like rings or gloves
g. 차다	for things you wear around your limbs like watches and belts
h. 벗다	to take off anything

Now, let's break down each one.

## 입다

This is the general term for when you want to use the verb wear for clothing. Since you're just learning these verbs, you may forget them. However just like with counters from the previous lesson on numbers, if you use the verb 입다 for an item of clothing that requires another verb, most people will understand you. Some may even gently correct/remind of on the correct verb to use.

 ([track 11-3](#))

- a. 코트 입다 = to wear a coat
- b. 셔츠 입다 = to wear a shirt
- c. 스웨터 입다 = to wear a sweater

## 신다

 (track 11-4)

This verb is used for things you wear on your feet. Socks, shoes, slippers, boots, and even flippers for scuba diving. I found this to be this easiest of the wear verbs to remember since you have to put on shoes every day.

- a. 신발 신다 = to wear shoes
- b. 부츠 신다 = to wear boots
- c. 샌들 신다 = to wear sandals

## 쓰다

 (track 11-5)

You may or may not have seen this verb in other contexts. It can also mean to use, to stand, or to write. In the clothing context of things, it is used with clothing and items you can put on your head.

- a. 모자 쓰다 = to wear a hat
- b. 안경 쓰다 = to wear glasses
- c. 마스크 쓰다 = to wear a mask

## 매다

This is used for things you can tie or fasten.

 (track 11-6)

- a. 스카프 매다 = to wear a scarf
- b. 넥타이 매다 = to wear a tie

## 메다

It's sometimes easy to get this verb and the previous '매다' confused with each other. The spelling is similar and they sound basically the same (in recent years, the ㅌ and ㅎ sounds in Korean are considered nearly identical in spoken language). It's used for things you sling on your back.

▶ (track 11-7)

- a. 책가방 메다 = to wear a backpack

## 끼다

This verb is for anything you can wear on your hands or fingers like rings, gloves, or mittens.

▶ (track 11-8)

- a. 반지 끼다 = to wear a ring
- b. 장갑 끼다 = to wear gloves

## 차다

This verb is for things you wear around your limbs like belts or watches.

▶ (track 11-9)

- a. 벨트 차다 = To wear a belt.
- b. 손목시계 차다 = to wear a wristwatch

## 벗다

Finally, we come to this verb. It means to take off, and luckily, this can be applied to all items of clothing so no need to learn another 7 verbs for this action.

▶ (track 11-10)

- a. 안경 벗다 = to take off your glasses
- b. 신발 벗다 = to take off your shoes
- c. 모자 벗다 = to take off your hat
